ABOUT

> I am a passionate and results-driven full-stack developer with a strong foundation in both front-end and back-end technologies. My journey in the world of web development began several years ago, and I have since honed my skills to become a proficient and adaptable developer. Proficient in multiple programming languages. Strong problem-solving skills and ability to work effectively in a team-based environment.

SKILLS

FRONTEND

- HTML/CSS
- JavaScript
- React.js/React Native
- Nextjs
- Angular
- TailwindCSS/Bootstrap

BACKEND

- Node.js
- MongoDB
- SQL
- Git
- RESTful APIs

PROJECTS

Yarcone.com

Yarcone.com is an innovative platform that empowers users to share their stories, ideas, and expertise with a global audience. Featuring a seamless user experience, Yarcone.com offers a rich text editor for creating beautifully formatted articles, dynamic feeds for discovering diverse content, and robust engagement tools like comments, likes, and shares. With a focus on user-centric design and community building, Yarcone.com fosters a vibrant space for writers and readers to connect and inspire each other. Leveraging cutting-edge technologies, the platform ensures a responsive, secure, and high-performance environment for all its users.

BookingApp

Discover seamless travel planning with my vacation booking app, an intuitive platform designed to simplify the process of finding and reserving your perfect getaway. Users can effortlessly browse a wide range of destinations, accommodations, and travel packages, all presented with rich, detailed information and vibrant images. The app features secure booking, real-time availability updates, and personalized recommendations based on user preferences. With a user-friendly interface and comprehensive search options, our vacation booking app ensures that planning your next vacation is as enjoyable as the trip itself.
